COMMUNITY MYNuusblad

December 2025

Festive season message from our CEO and MD

As we reach the end of the year, I want to thank our host communities for your continued support on our journey to develop the Prieska Copper Zinc Mine (PCZM) and the Okiep Copper Project. Your partnership has been essential as we work to build a sustainable base-metal production hub in the Northern Cape.

We are committed to responsible mining practices that not only drive growth and prosperity but also empower the communities we operate in.

Looking ahead to 2026, we are excited about taking significant steps toward achieving first production at these world-class assets, and will continue to share updates as the projects advance. We will continue to work hand-in-hand with you to create meaningful socio-economic development and entrepreneurship opportunities.

From all of us at Orion Minerals, we wish you and your families a joyful, safe and restful festive season.

Tony Lennox

Managing Director and Chief Executive Officer

2025 key achievements for Orion

During the year, we published definitive feasibility studies for both PCZM and the Okiep project. While we have moved into execution mode for our flagship PCZM, Okiep requires optimisation and that work is currently underway.

In May, we had the privilege of hosting Minister Gwede Mantashe at Prieska, a mine that is special to him, given his time working there from 1975 to 1983.

The biggest highlight of the year was the signing of a non-binding finance and offtake agreement with Glencore during September. We have been focused on the due diligence process since then and are hopeful of getting to a binding agreement imminently.

Follow our social media pages for the latest updates.

Stay safe

As a mining company, safety is our first priority. Join us in staying safe and looking out for one another as 2026 awaits.
